

CORONA DUE 45

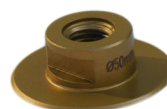

GRES

Il foretto "CORONA DUE 45 GRES" è stato ideato per il carotaggio a secco dei materiali più duri come gres porcellanato, klinker e granito. L'attacco M14 lo rende duttile in quanto può essere montato su qualsiasi smerigliatrice.

"The core bit "CORONA DUE 45 GRES" is designed for the dry drilling of the hardest materials like porcelain stoneware, clinker and granite. The M14 fitting makes it ductile as it can be mounted on any grinder type".

PER USO
A SECCO
